James came to the house and reviewed my security on both the main and side entrance to the home. He advised and then subsequently fitted new locks on both doors with keys and an upstairs windows taking time and care in ensuring the locks fitted well and caused no issues with locking and unlocking. I am much happier now the locks have been put in place and my house is safer for it.

I would recommend James highly to anyone needing new locks and in fact have done so on a number of occasions.

Thank you for a job very well done.
